

## Henry's Manifesto

Hello! My name is Henry Austwick and I am running for University of Exeter Cornwall Campus (UECC) FXU President. I am a third year history student with a passion to ensure students are properly represented at all levels, particularly in these difficult times of cut backs and rising fees.

During my time at Uni, I have been involved with the Student Council and Chair the History Department Staff, Student Liaison Committee. Over the last couple of years, I have helped the FXU in the organisation of Fresher's Fortnight, everything from bag packing to setting up events. This has given me a real insight into how the FXU works and will enable me to get straight on with the job of making your student experience better!

During the summer I have worked alongside the catering staff and have a good working knowledge of how Tremough Campus Services work. I have particularly enjoyed my time as a Senior Student Ambassador in Cornwall, organising Open Days, running events in Schools and working closely with UCF on Careers Fairs. All this has helped me to develop organisational skills, whilst still being diplomatic.

If you've heard of the Brewhouse Brewery, the Brewery run by Students, for Students, well I'm the one behind it all.

### What I intend to do!

It's all about *Communication*

Making promises to change the world is all well & good, but, as everyone knows, sometimes it's unrealistic. I just have a five simple points that revolve around better communication on behalf of, and with the Students, enabling you to know what is going on and giving you the chance to become involved if you want to. We have an amazing and unique campus that is really starting to develop; together we can make it an even greater place to live and study than it is now!

- **Get Students the best deal from the University** - From study space to facilities. With the fee rises coming we need to get more for our money.
- **Promote Tremough Campus** - I've had several meetings at Streatham where I've asked if anyone knows much about the Cornwall Campus? Very few hands go up. Following on from the work of this year's President, I want to make Streatham and other Uni's much more aware of our existence. Maybe some joint events with Streatham – perhaps a video link gig? Let's be proud of what we have!
- **Increase relationships with third parties** - Virtually every other university campus has a Bank (or at least a Cash Machine that's free) together with other businesses that give students a choice. Why shouldn't we?
- **Ensure there is minimal disruption during building work** - Make sure that everyone is told about what's going on, through more high profile displays and actually talking to people not just endless emails. Especially when building on the Exchange starts.
- **Continue the work of this year's President– Great music events, working with the local community and putting students first!**

There so many more things to say, so come and talk to me, if you have any ideas or questions. As your President I promise to do what is best for the students and make sure that your time at Cornwall is the best time of your life!
